State Engineer,  
State Capitol, Salt Lake City, Utah.

RE: MONTEZ CREEK DIST.

Dear Sir:

Replying to your request of yesterday as to the meeting of Ira S. Bryant and myself with you and officers of the Dry Gulch Irrigation Company at their office at Roosevelt at 8 p.m. March 11, will say that, while somewhat inconvenient for me, I will arrange to be there if reasonably possible.

I should like to meet your representative at Ouray on the preceding Saturday, March 9, at the Ouray Subagency building as he goes through here to attend the meetings you have announced for Willow Creek and Hill Creek water users on that day, if practicable, and to talk over the water situation there as well as at other places, particularly Montez Creek, while on our way to the Willow Creek meeting.

Yours very truly,

J. F. Hoyt  
J.F. Hoyt
